DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 12-17, 24-29, 31-36, and 38-41, drawn to the apparatus of a sampling probe for delivering a reactant to a substance deposited on a substrate to form a reaction product and transporting the reaction product to a product analyzer for analysis, classified in class 422, subclass 100 or class 141, subclass 130.
 - II. Claims 18, 30, 37, 42, 43-49, drawn to the method of for sampling reaction products, classified in class 436, subclasses 173 or 180.

The inventions are distinct, each from the other because of the following reasons:

The inventions are distinct, each from the other because of the following reasons:

1. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different process such as cleaning a surface, distributing medication, or providing a sheath fluid for a sample fluid in flow cytometry.
2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1743

3. A telephone call was made to the law firm of Senniger, Powers, Leavitt and Roedel on 5/15/2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
